PROFILE

As a driven and passionate tech enthusiast, I am committed to leveraging innovation to create meaningful impact. I thrive on solving complex challenges, questioning conventional limits, and developing groundbreaking solutions that redefine possibilities in technology. While I am at the start of my professional journey, my proactive and growth mindset, quick adaptability, and commitment to continuous learning drive me to embrace challenges and master new skills.

With a proactive mindset and a dedication to continuous learning, I aim to contribute fresh perspectives, technical expertise, and unwavering determination to any prospective team by combining my willingness to get out of my comfort zone with a forward-thinking mindset to build impactful, cutting-edge solutions that grant me the opportunity to become a great asset to the company and industry at large. My ultimate goal is to be a catalyst for innovation, adding measurable value to the tech industry and shaping a future powered by transformative technology.

SKILLS

- **Technical:** Python (Proficient) • SQL/MySQL (Working Knowledge) • JavaScript (Working Knowledge) • HTML/CSS (Working Knowledge) • Git • Java (Coursework Level) • C++ (Coursework Level) • Microsoft Excel
